WORK EXPERIENCE

Associate Software Quality Engineer

Sun Life Financial

10/2023 – present
Toronto, Canada

Collaborate in a dynamic QA team to ensure software quality across multiple projects.

- Perform mainframe testing to validate legacy systems and ensure integration accuracy with modern applications.
- Utilize the Tosca automation tool to design, develop, and execute automated test cases for regression and functional testing.
- Manage and track test execution and requirements using qTest, ensuring traceability and comprehensive test coverage.
- Actively use JIRA for defect tracking and sprint planning; contribute to daily stand-ups and sprint reviews as part of the Kanban process.
- Work closely with cross-functional teams, including developers, product owners, and business analysts, to align on quality goals and timelines.

QA Engineer

FDM Group

01/2023 – 10/2023
Toronto, Canada

Performing automation and manual testing of the Ticketing System to ensure its functionality and usability

- Developing automated test scripts using Java and Selenium WebDriver, implementing behavior-driven development (BDD) scenarios using Cucumber, and integrating them with the existing testing framework
- Identifying and documenting defects or issues encountered during testing in the Test Collateral Report
- Working in an Agile development environment using the Scrum framework

Technical Support Advisor

Kelly Services

08/2022 – 10/2022
Toronto, Canada

Followed documentation and training materials to diagnose, resolve, and escalate customer calls when necessary

- Logged all the call activity into an online technical support database and provided documented information to the knowledge base
- Assisted with the backup of the device before transferring data to a new device and troubleshooting any issues that may arise during the process

Software Application Developer

Siyana Info Solutions

06/2018 – 12/2018
Ahmedabad, India

Worked as an Android Developer (Intern) and gained hands-on experience in developing mobile applications using Java and Android Studio

- Improved designing skills of an application using Adobe XD software
- Learned RestApi in Android application development to integrate features such as fetching real-time information, sending/receiving data to/from server databases using Retrofit library
- Managed and stored data efficiently, utilizing SQL for local data storage and retrieval, and Firebase for real-time data synchronization and user authentication

PROJECTS

Cineplex

FDM Group Training Project

02/2023 – 03/2023

Worked on a Selenium cucumber-based project focused on testing the Cineplex website

- Implemented test automation using Selenium WebDriver and Cucumber frameworks
- Worked on comprehensive test scenarios using the Gherkin syntax, which contains various functionalities such as buying gift cards, getting movie details, getting a VIP food menu, and watching the trailer of a new movie

CookBook

06/2021 – 08/2021

Cegep De La Gaspésie et Des Îles - Project

Developed an Android-based application to provide various types of recipes from different chefs

- Implemented features such as create, read, update, and delete using CRUD operations
- Implemented an application in two languages, English and French, which serves the purpose of enhancing user accessibility and expanding the reach of the Android Application

AllianceFrancaise

01/2021 – 05/2021

Cegep De La Gaspésie et Des Îles - Project

Developed an Android-based application to provide different ways of learning French

- Implemented different levels of learning the French language, such as beginner, intermediate, and advanced levels, by utilizing Java and XML in Android Studio
- Worked with Firebase database to handle the data storage and used some popular libraries such as Picasso for loading images and Android Jetpack for navigation

EDUCATION

Post Graduation Diploma

01/2020 – 08/2021

Cégep de la Gaspésie et des Îles

Montreal, Canada

Major: Mobile Application Development

Bachelor's of Engineering

06/2015 – 05/2019

Gujarat Technological University

Ahmedabad, India

Major: Computer Engineering
